Abstract

It is a short summary of the main ideas of article. The research object, the aim of the study, the study methods, results, and conclusions should be specified. Text is limited to 200-250 words.

There are 4-7 keywords which are separated by commas.

Introduction

There should be specified the object and purpose of the research, the relevance of the topic, the problem, problem investigation level, a review of reference list and applied research methods.

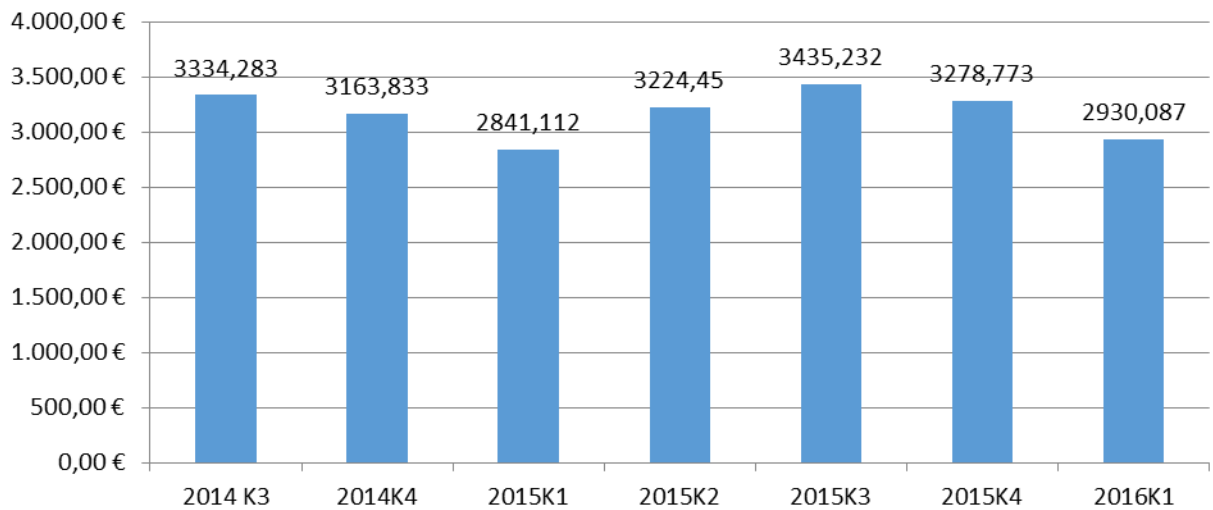

Main Text

This text sets out and justifies the study results. It is recommended logically divide text into sections. Titles of sections have to fulfil their contents. Sections names are numbered in one Arabic numeral; subsections are numbered in two Arabic numerals. All the authors works mentioned in the text have to be included in the reference list. References to the source are in parenthesis with authors surname and year of publishing, e.g.: (Skousen, 2016; Gerber, 2014), (Mackevičius, J., Subačienė, R., 2016), (Ulrich 2012a, 2012b). If there are more authors, only the first author's surname is pointed, then et al, e.g. (Browning *et al.*, 2014). Mathematical formulas (expressions) are printed only in *Microsoft Equation Editor Times New Roman* 11 pt font size. Formulas are numbered in Arabic numerals in parentheses at the right edge of the text.

$$D = b^2 - 4ac \quad (1)$$

Units of measurement are specified next to variables in the charts. Illustrations, diagrams, pictures are consecutively numbered in Arabic numerals with a title (no dot after title) e.g.:

¹ Short and informative. No contractions. Title is in Lithuanian and English. If article is in Lithuanian, the title in English is presented before the summary in English. If article is in English, the title in Lithuanian is presented before the summary in Lithuanian.

Tables are inserted into text. They are numbered consecutively in Arabic numerals indicating the title (no dot after title), e.g.:

1 table. Paper font size and style used in paper.

Parts of Paper	Font Size	Font Style
Title (capital letters, centered)	14	BOLD
Author/s (small letters, centered)	12	Bold
Organization (small letters, centered)	<i>10</i>	<i>Italic</i>
Abstract (small letters, aligned through entire sheet)	10	Normal
Keywords (small letters, aligned through entire sheet)	10	Normal
Basic text (aligned through entire sheet)	12	Normal
Sections titles (small letters, aligned to the left edge)	12	Bold
Reference list aligned through entire sheet)	10	Normal
Information about author (aligned through entire sheet)	<i>10</i>	<i>Italic</i>
Mathematical terms (centered)	<i>11</i>	<i>Italic</i>
Tables titles (above the table, aligned to the left edge)	<i>11</i>	<i>Italic</i>
Text in the tables	11	Normal
Illustrations' titles (below the illustrations, centered)	<i>11</i>	<i>Italic</i>
Text in illustrations	11	Normal

(Source: concluded by authors)

Illustrations, diagrams, pictures, tables and mathematical formulas with explanations are printed where the text mentions. It is necessary to specify the source of information

The paper should be prepared in *MS Word* format. Text is printed in *Times New Roman* font type (1 table), A4 size sheet. Text alignment is reciprocal. Single line spacing. Top and lower margins- 2 cm, left margin - 3 cm, right - 1cm. First line indentation – 1,25 cm.

Paper volume: 6-8 pages.

There should be single line spacing between the paper title and authors name and surname, section title and text, text and formula, text and table, text and illustration.

Pages should be numbered in lower margins in the middle in Arabic numerals without dots and dashes.

Conclusions

Summarised results of research are presented. No quotations and references to the sources in conclusions.

Reference List

Not numbered. Only quoted sources in the paper are presented. Preferably the newest sources published within the last five years would be included into reference list. It is listed in alphabetical order in original language.
